## GSA is pleased to present **GSA Auctions™**

Bid "live" auctions, on-line, with lots of items within specified timeframes. We make it easy! At bid closing, GSA will honor the highest bid received.

This new state-of-the-art technology streamlines the business process and allows greater flexibility and speed for the introduction of enhancements. It reduces your administrative costs, increases market penetration, and maximizes the return on your investments. Getting rid of your excess property won't get any easier than this.

GSA Auctions™ represents a major shift in the strategy for selling property that the Government no longer needs. In the past, surplus sales have been conducted at regional locations utilizing traditional sales methods such as sealed bids and on-site auctions. This new on-line version will allow GSA to offer assets located across the country to any interested buyer, regardless of location. In addition, we will be able to access a larger segment of the general public, which should result in more competitive sales prices and a greater return for the Government.

We will provide guidance for property disposal, special handling requirements, time thresholds for moving property, and advise you about property available for reuse.

For more information or to register, call (703) 605-5610 or visit [www.gsaauctions.gov](http://www.gsaauctions.gov)
